

## Cichlid Vegi Pellets

### General information

A highly palatable diet consisting of soft and moist pellets, specially formulated for African and South-American herbivorous and omnivorous cichlids. These sinking pellets are designed to enhance health, growth and coloration. This unique formula replicates the natural diet of herbivorous cichlids, providing growth without fattening the fish. The formula includes several natural pigments to intensify the blue, red and yellow colors. It also contains Spirulina, garlic, vitamin C and other immune boosters. Low phosphorus and low ash content. Comes in 2 pellet sizes: small (+/- 1.8mm) and medium (+/- 3.8mm) pellet.

Feed one to three times daily. Do not feed more than can be eaten within a few minutes.
