

Frozen Spirulina Formula

General information

An algae rich Frozen Formula Food, based on Spirulina, a nutritionally valuable blue-green algae known for its color and health enhancing properties and high protein content.

To improve the flavor and enhance palatability, we have supplemented this formula with fresh seafood, like fish fillets, mussels, Artemia, ... This results in an outstanding nutritious product, beneficial to all marine tropical fish, especially those feeding on algae as part of their natural diet.

Contains softly binded soluble micronutrients such as vitamins, immunostimulants, carotenoids and attractive natural flavours.

Instructions for use: push out the required amount of cubes into a recipient. Let them defrost, without water, at room temperature during minimum 10 to 15 minutes before feeding. Your fish should be fed 2 to 5 times a day, only feed the amount that your fish will consume within 5 minutes.

Ingrediënts
