

General information

An entirely natural product based on wild almond leaves to mimic the Arowanas natural environment. Significantly reduces stress and alleviates stress related problems. Colorless, it helps clarify the water and limits the spread of algae.

Recommended doses: 5ml per 20l of water for normal applications. Use with every water change. In case of severe stress symptoms, the concentration can be doubled.

Ingrediënts

Wild almond leaves extract (Terminalia Catappa), almond extract, preservatives.
