Cichlid Vegi Flakes

General information

Scientifically formulated for the more herbivorous cichlids from the African Great Rift Lakes and other herbivorous freshwater fish. African cichlids can be prone to 'malawi-bloat' so the main challenge here was to make a flake with the appropriate protein content, rich in vitamins and lots of plant matter. These fish are what one calls 'grazers' hence the all important role of Spirulina in this formula.

Feed as much as you fish will eat in 2-3 minutes. Distribution 3-4 times per day.

Ingrediënts

Wheat flour, fish fillets, wheat gluten, soya, krill (*Euphasia sp.*), marine algae, yeast, squid, lecithin, refined fish oils, mussels, adult brine shrimp, spirulina, garlic, marine fish eggs, brine shrimp nauplii, vitamins (retinyl acetate (vitamin A), cholecalciferol (vitamin D3), L-ascorbic acid phosphate (vitamin C), tocopherol acetate (vitamin E), menadione (vitamin K3), thiamine mononitrate (vitamin B1), riboflavin (vitamin B2), pyridoxine (vitamin B6), cyanocobalamin (vitamin B12), biotin (vitamin H), panthotenic acid (vitamin B5), folic acid (vitamin B9), niacin (vitamin B3)), minerals, antioxidants, carotenoid pigments.
